ROCK THE RADAR!

What exactly is a weather radar like KOHX? What does it do? How does it work? Did you know R.A.D.A.R. is actually an acronym? Do you know how to interpret radar imagery? Did you know there are multiple radar products or perspectives that tell a story?

RAIN GAUGE REALITY

Our school's CoCoRaHS rain gauge is only one (1) of over 200 stations in Middle TN whose data supports the work of the National Weather Service and other atmospheric science entities. Can you think of a time when you got a lot of rain, but someone you know relatively close by barely got a drop? Why does this matter? See all about the importance of this work at weather.gov/ohx/cocorahs.
